

Minor Surgery now offered

at Hillcrest Medical Centre

The team at Hillcrest Medical Centre offers a range of day case procedures performed by our skilled and accredited clinicians.

Our treatment rooms are fully equipped to conduct surgeries that require local anaesthesia.

We also welcome referrals for pre-surgery consultations.

Minor surgical procedures available

All skin lesion removal
incl lipoma

In-grown toenail surgery
and wedge resection

Adult circumcision

Hydrocele drainage

Vasectomy

Our Surgical Team

Dr Abdelazeem Salih

Dr Salih has been in general practice since 2019.

He worked at Waikato Hospital for more than three years before starting his general practice career.

He worked in different medical and surgical specialties at Waikato Hospital and his last six months with the emergency department.

He is a Ministry of Health affiliated provider for skin lesion removal.

Dr Andrew Low

After obtaining his medical degree from the University of Otago, Andrew spent six years in several surgical specialties (General Surgery, Paediatric Surgery and Urology) before entering general practice.

His special surgical interests include men's health procedures: vasectomy, adult circumcision and hydrocele drainage.
